

Overview of Ciena

May 2025

Agenda

1. Ciena overview
2. Our business in the global context
3. Growth strategy

Ciena is the global leader in high-speed connectivity

We build the most adaptive networks in the industry, enabling customers to anticipate and meet ever-increasing digital demands.

Prioritizing collaborative relationships with our customers, partners and communities, we create flexible, open and sustainable networks that better serve all users — today and into the future.

Headquartered in Maryland, USA, and incorporated in 1992, Ciena enables customers to deliver richer, more connected experiences for all users.

Market leadership

#1 Globally

- Purpose-built/compact modular DCI
- SLTE WDM
- Access switching

#1 N. America

- Total optical networking
- Purpose-built/compact modular DCI
- Access switching

#2 Globally

- Total optical networking

Optical Networking Report, 3Q24
Service Provider Switching and Routing Report, 3Q24

#1 Globally

- Purpose-built/compact modular DCI
- Optical for cloud and colo
- SLTE WDM

#1 N. America

- Total optical networking
- Optical for cloud and colo
- Routing/Access

#2 Globally

- Total optical networking
- Optical for service provider
- Routing/Access

Transport Hardware Report, 4Q24

#1 Globally

- DCI
- Optical for internet content provider customers

#1 N. America

- DCI
- Total optical networking
- Optical packet

#1 Globally

- Total optical networking
- Purpose-built/compact modular DCI

Our leaders set strategic vision and drive us forward

Gary B. Smith
President and
Chief Executive Officer

James E. Moylan, Jr.
SVP and
Chief Financial Officer

David M. Rothenstein
SVP and
Chief Strategy Officer

Sheela Kosaraju
SVP and General Counsel,
Interim Chief People Officer

Jason Phipps
SVP, Global Customer
Engagement

Joe Cumello
SVP and
GM of Blue Planet

Rebecca Smith
SVP, Global Marketing &
Communications

Brodie Gage
SVP, Global Products
& Supply Chain

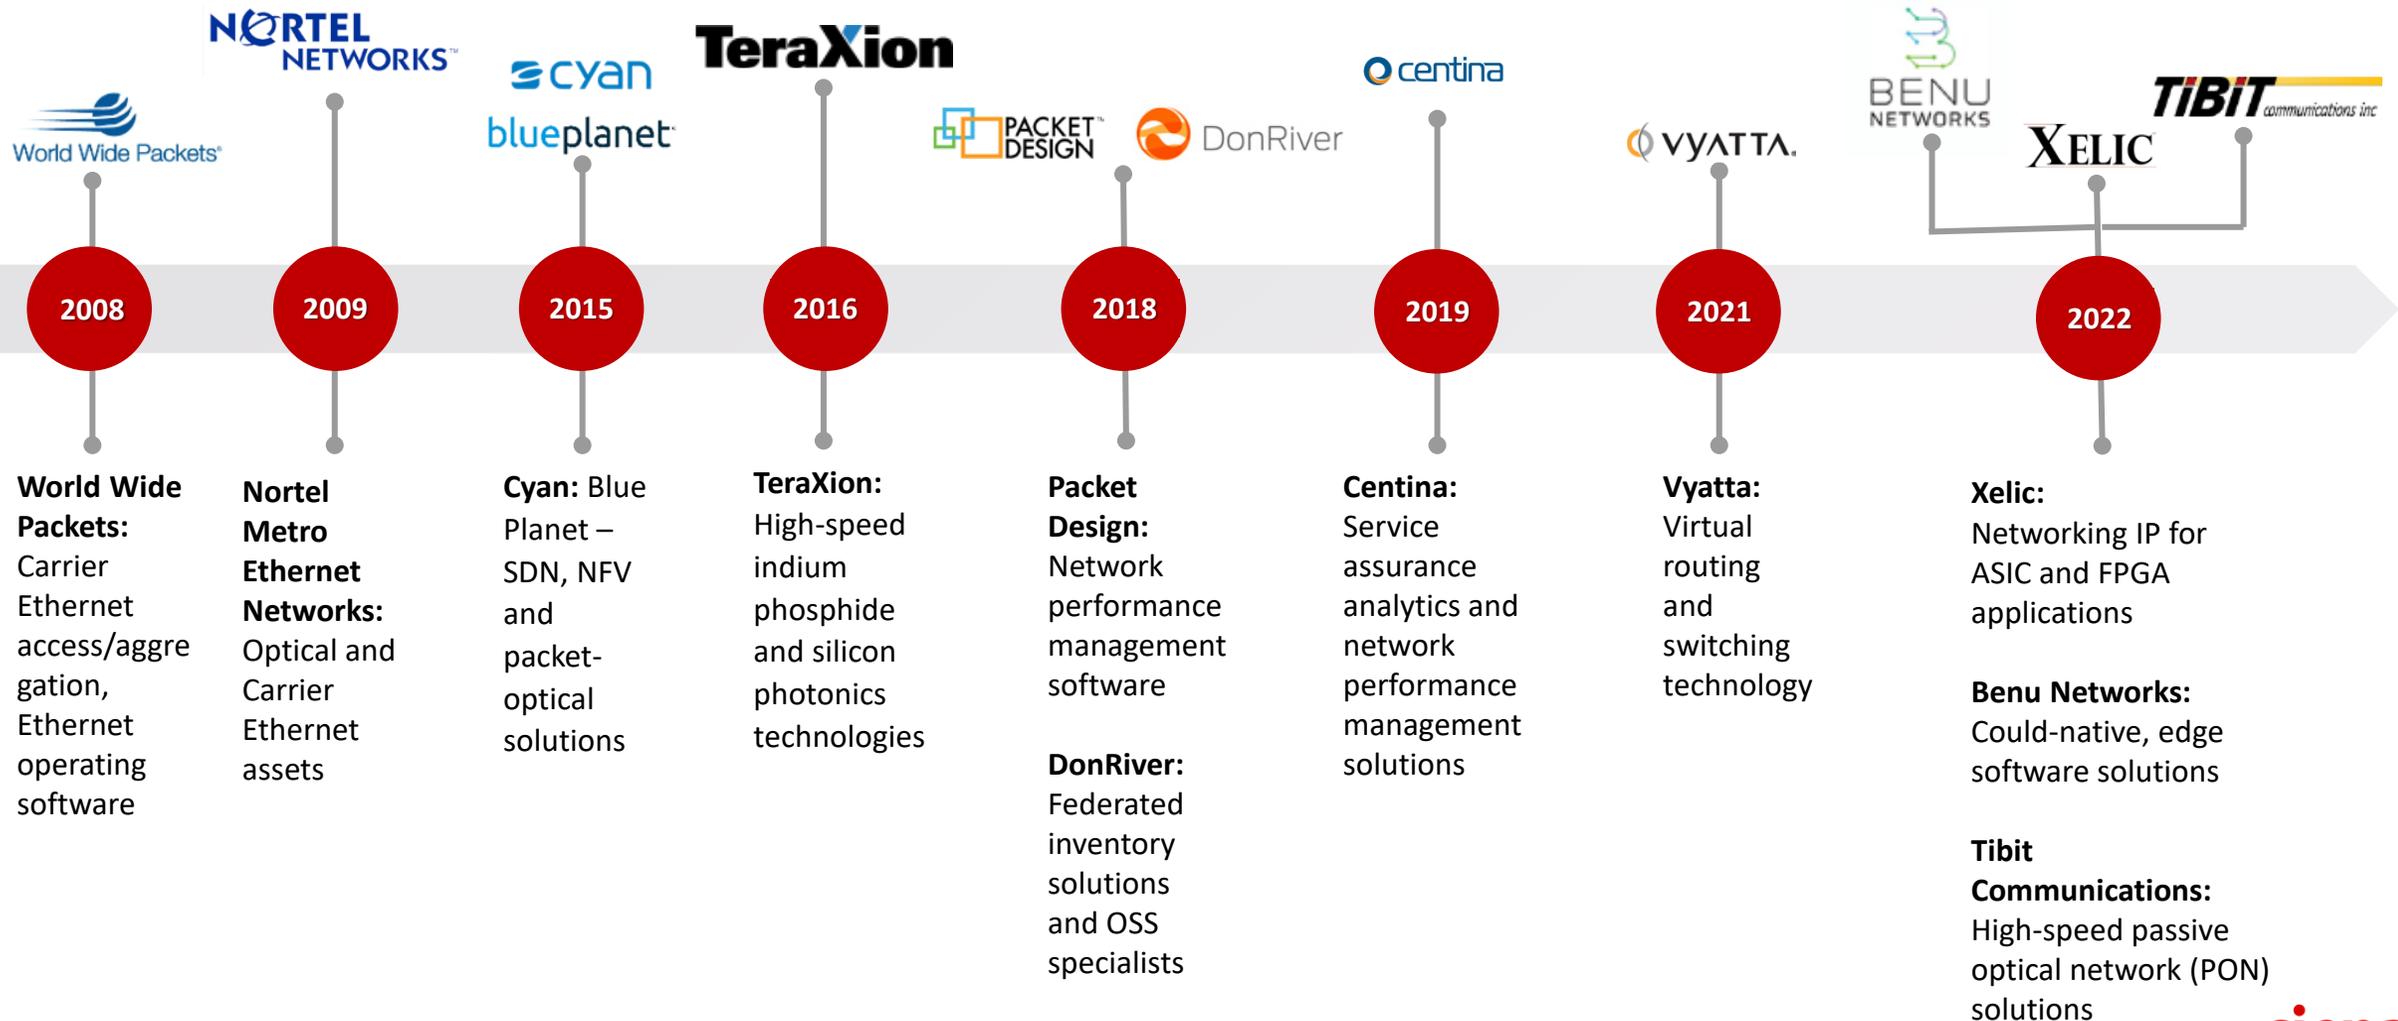

Dino DiPerna
SVP, Global Research
& Development

Scott McFeely
Executive Advisor

Ciena's acquisitions have added strength and breadth

Value

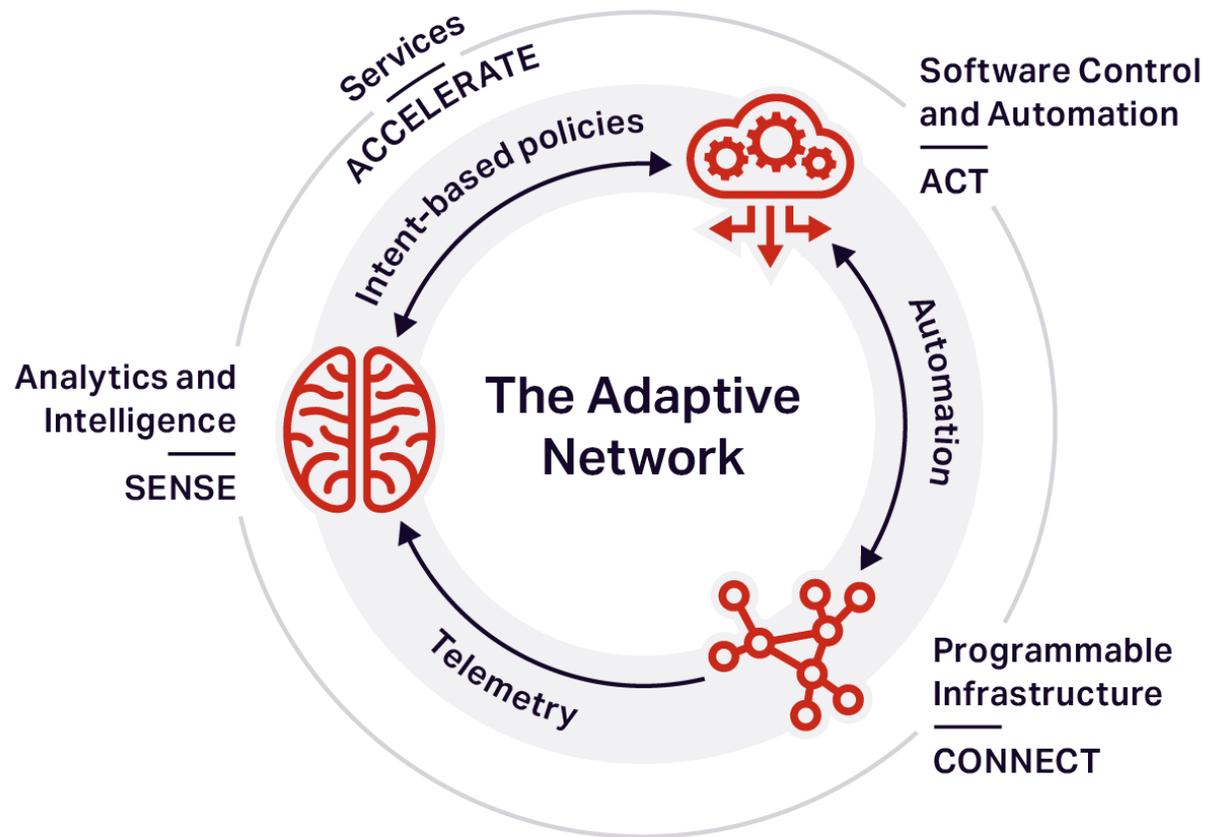

Our business in the global context

The pace of bandwidth consumption is explosive, and may increase due to AI

Our vision for network modernization is the Adaptive Network

Software Control and Automation

- AI-driven management and automation of services across multi-layer, multi-vendor, multi-domain networks

Programmable Infrastructure

- Dynamic pool of virtual and physical resources
- Manageable through common, open software interfaces
- Highly instrumented to understand the network state

Analytics and Intelligence

- Leveraging AI, proactively predicts potential problems and anticipates network trends—before they occur
- Leverages instrumented infrastructure telemetry

Services

- Services to help build, operate and improve network and operational performance

Ciena's hardware portfolio addresses every segment of the network

Access

ONU/ONT Portfolio
Passive Optical Networking (PON)

Micro OLT Plugs (PON)

39xx family

51xx family

Waveserver E-Series

Metro

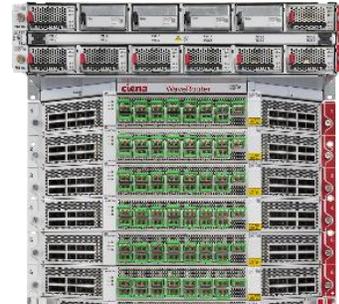

ELS coherent-optimized
Open Line System (OLS)

81xx family

WaveLogic Nano

WaveRouter family

Long-haul & Submarine

Reconfigurable Line System (RLS)

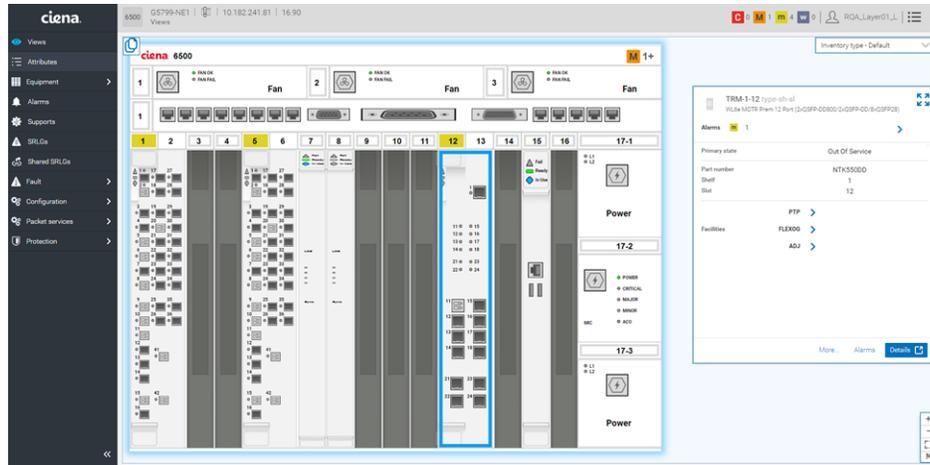

6500 family

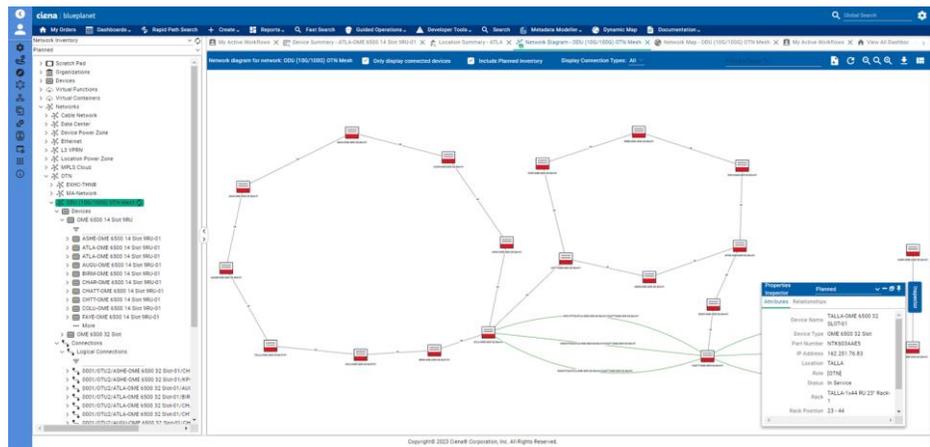

Waveserver family

Ciena and Blue Planet automation software offerings complement and strengthen our hardware portfolio

Ciena's portfolio serves diverse customer segments and applications

Customer segments

- Cloud Providers
- Service Providers
- Cable Operators (MSOs)
- Enterprise / Government / R&E

Key applications

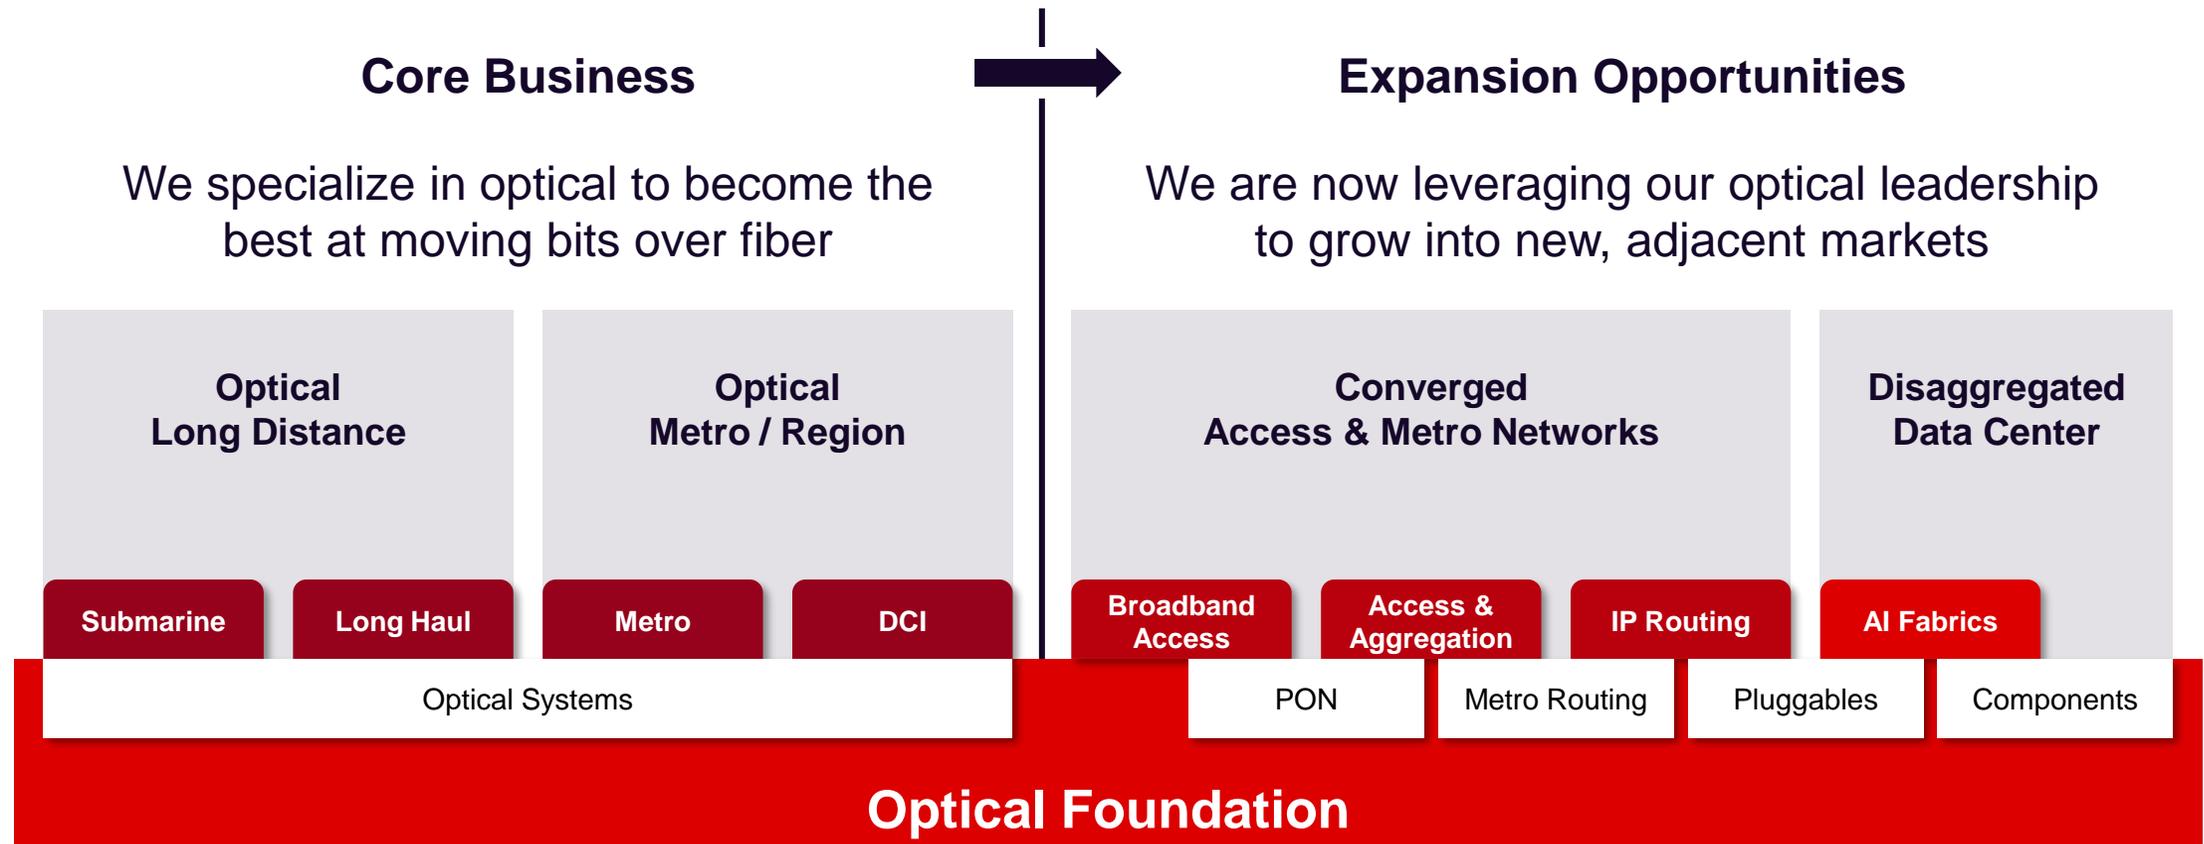

- Subsea
- Wholesale / Managed Optical Fiber Networks (MOFN)
- Regional & Long Haul
- Metro DCI
- Campus

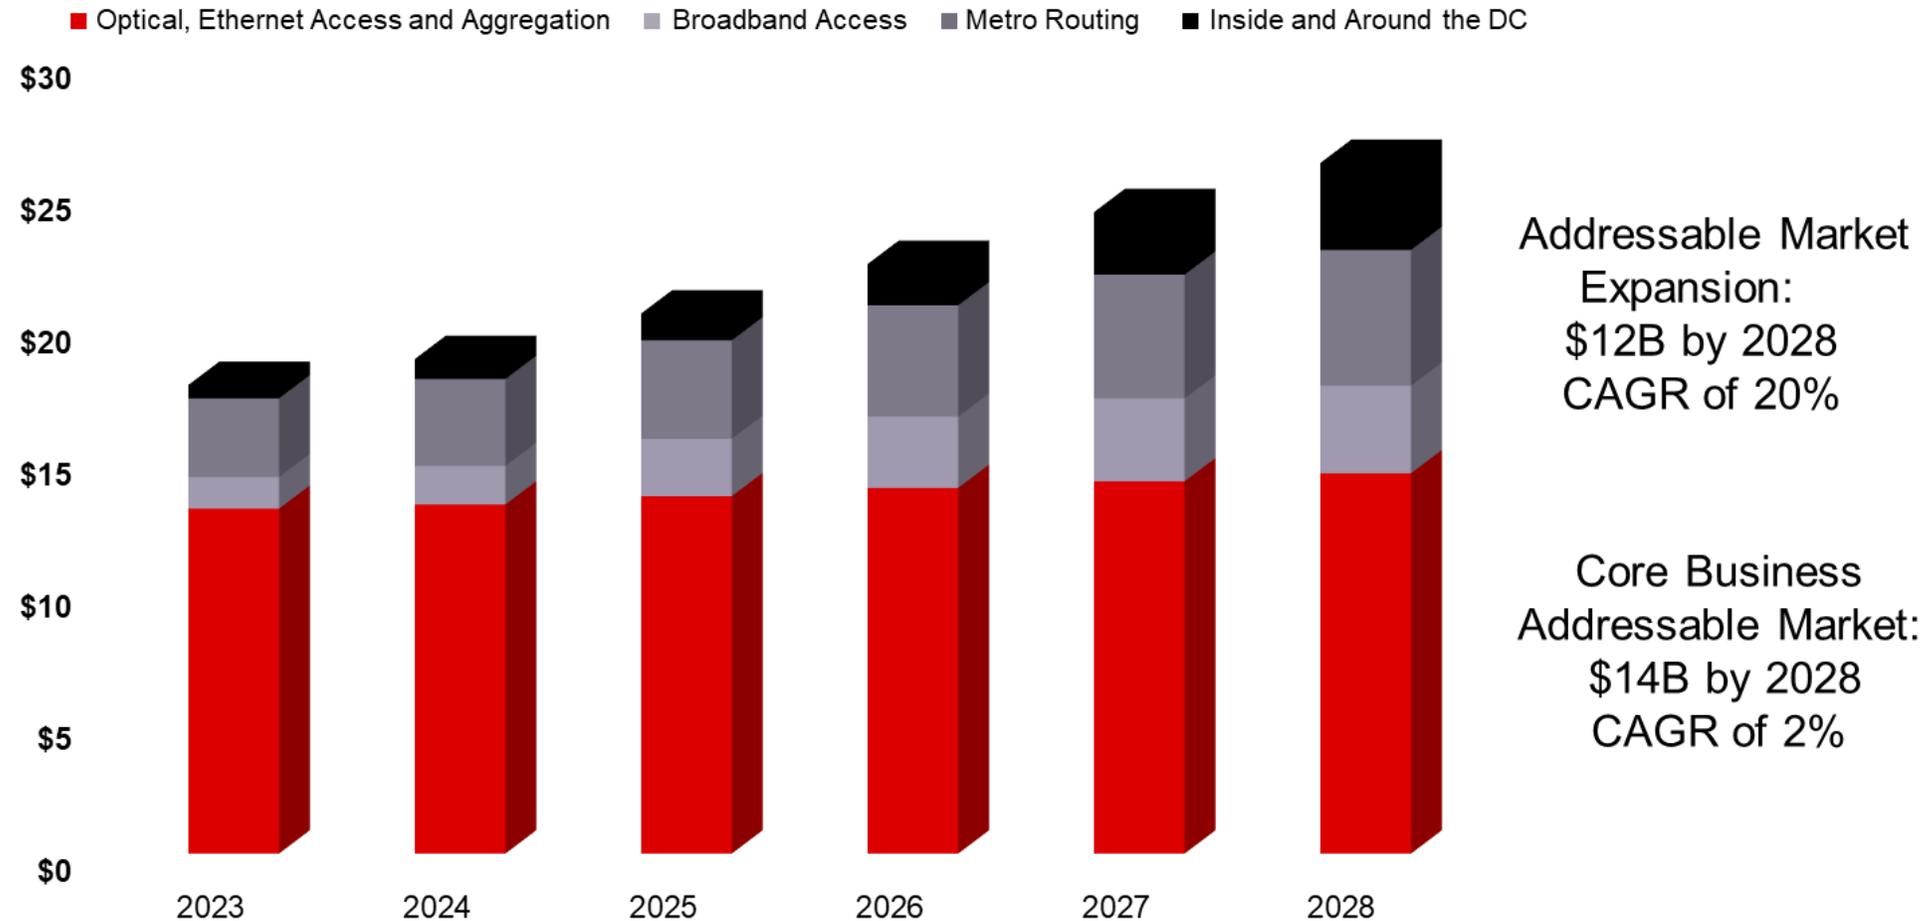

Our growth strategy

Ciena's strategy leverages our optical technology to create expanded addressable market opportunities

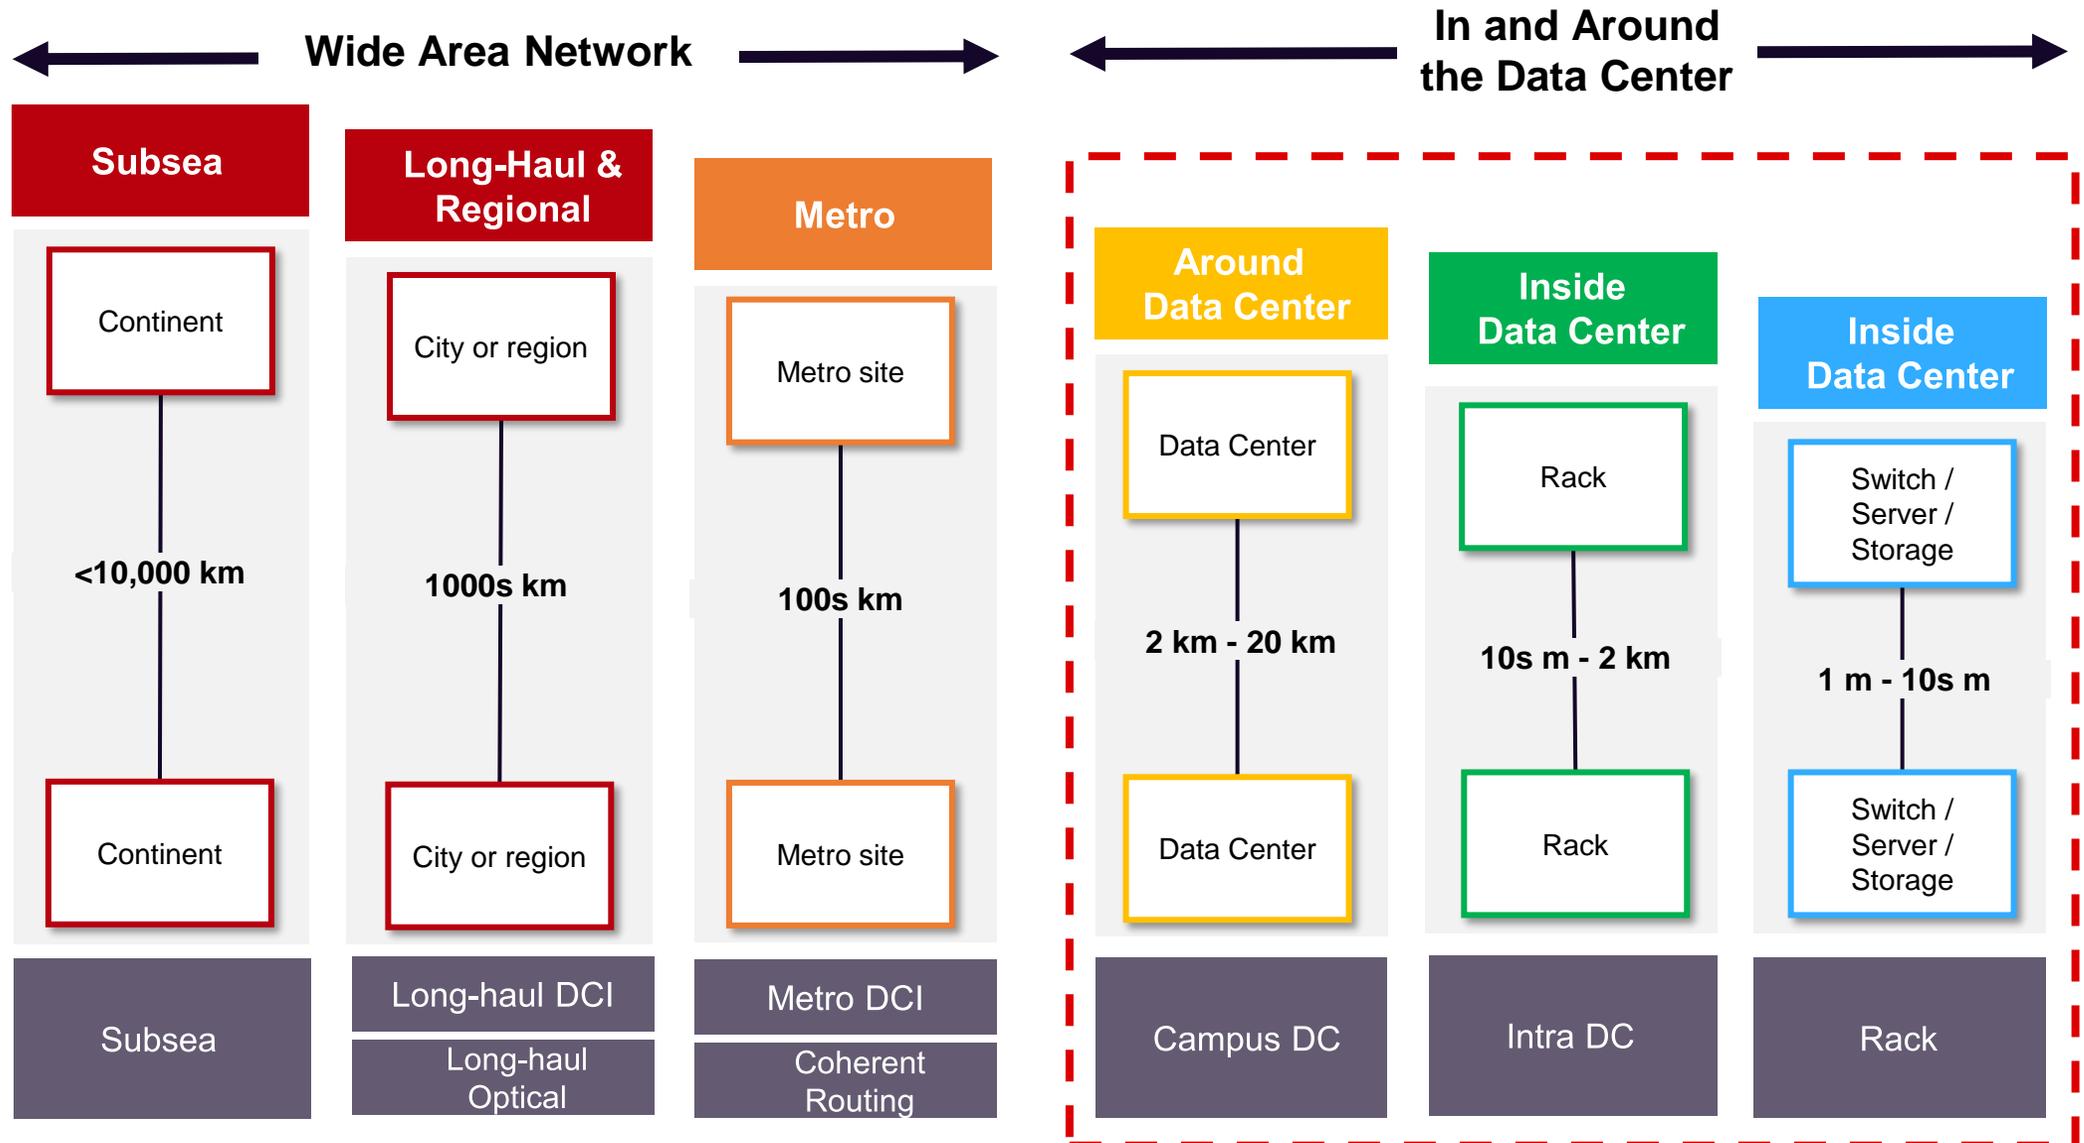

Our addressable market expansion strategy allows us to access higher-growth markets

Broadband Access, Metro Routing, and Inside and Around Data Center are Key TAM Expansion Opportunities

¹Sources: Dell'Oro, Cignal AI, LightCounting, and Ciena internal analysis.

Network applications based on reach

Coherent fits where high-bandwidth rates are required in and around the data center

		400G	800G	1.6T	3.2T
Around DC	Metro DCI <100km	Coherent	Coherent	Coherent	Coherent
	Campus <20km	IMDD	IMDD / Coherent	IMDD / Coherent	Coherent
Inside DC	Fabric <2km	IMDD	IMDD	IMDD / Coherent	IMDD / Coherent
	AI Cluster Optics/Copper <500m	IMDD	IMDD	IMDD	IMDD / Coherent

Ciena is expanding to serve a broader ecosystem and range of opportunities

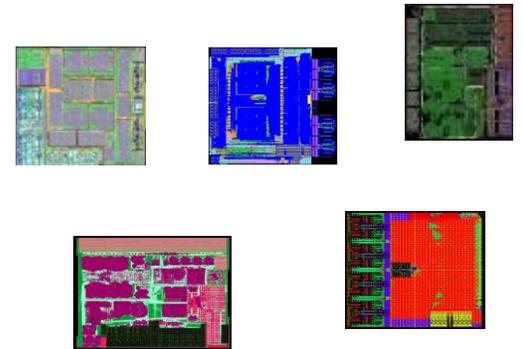

Systems

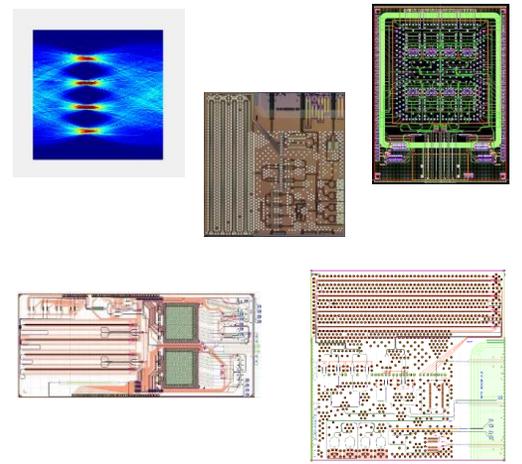

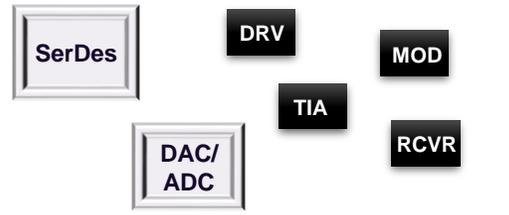

Coherent Modules

DSP ASIC

High-speed Analog and Electro-optics

TODAY

EXPANSION

SerDes – Serializer-deserializer
 DSP – digital signal processor
 DAC/ADC – digital/analog converter
 ITLA – laser assembly

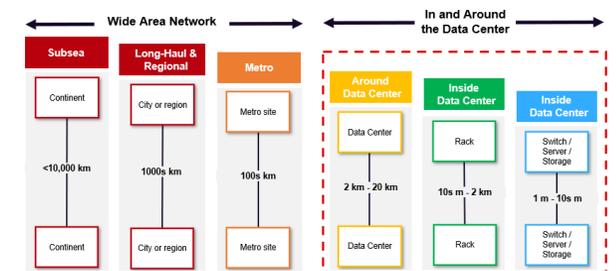

DRV – driver
 RCVR – receiver
 MOD – modulator
 TIA – transimpedance amplifier

Ciena interconnects roadmap to address multiple IMDD applications

		400G	800G	1.6T	3.2T
Around DC	Metro DCI <100km	Coherent	Coherent	Coherent	Coherent
	Campus <20km	IMDD	IMDD / Coherent	IMDD / Coherent	Coherent
Inside DC	Fabric <2km	IMDD	IMDD	IMDD / Coherent	IMDD / Coherent
	AI Cluster Optics/Copper <500m	IMDD	IMDD	IMDD	IMDD / Coherent

 High-speed interconnects for IMDD in the data center

Two-pronged “In and around the data center” strategy

Address the Metro DCI market with WL5 Nano (400ZR/ZR+) and WL6 Nano (800ZR/ZR+)

TODAY

COHERENT

IMDD

2026

Address the growing metro campus DC market (2-20km) (“Around the DC”) with our 1.6T Coherent-Lite solution - a variant of WL6 Nano

FUTURE

Intercept the Inside DC market with our coherent optical plugs and components as data rates increase to 3.2T and beyond

FUTURE

Access the Inside DC market by combining our high-speed interconnects technologies (DSP, Analog ICs) with IMDD technologies (EML, plugs, assembly)

ciena®
